PROFESSIONAL PROFILE

Educational leadership grounded in institution building.

Faruukh Nadeem, formally known as Hafiz Muhammad Faruukh Nadeem, is an educational leader, institution builder, and school-management professional whose career began in 2007. His work has developed across skills education, college leadership, school and college administration, multi-school management, teacher development, parenting education, student support, educational partnerships, social impact, and international administration.

He began his professional journey as Director of Cambridge Skilled Computer and English Academy in Jalal Pur Jattan from 2007 to 2009. He then served as Chief Executive Officer of Bastion Computer and English Academy from 2009 to 2010, overseeing academic programs, admissions, operations, and student services. From 2011 to 2013, he worked as Director of City Girls College while simultaneously developing a new educational institution for his ancestral rural area.

In 2011, Faruukh initiated the construction of an educational institution in Dhudray Sharqi, Gujrat District, Pakistan. The project responded to limited local access to suitable arts and science education. Classes commenced in 2013, supported by a strong response from parents and the local community. The initiative later expanded into Danish International Grammar School for Girls, Danish International Grammar School for Boys, Danish International Girls College, and professional skills education through Canadian Advanced Skills Academy.
